Master Showmanship

We will offer four Market Master Showmanship Competitions in the Market Show – one for 4-H/Grange senior competitors; one for 4-H/Grange junior competitors, one for Novice FFA, and one for Advanced FFA competitors.

The Master Showmanship contests will be
Wednesday, May 19, 2010
At 10:00 am in the GMVC Arena

The 1st place winner, of each of the 4-H Senior, Junior Classes, Novice FFA, and FFA Advanced, in each specie, will be given the opportunity to compete in the Master Showmanship Contest. Each specie contest winner must declare to the Livestock Office, by 12 Noon on Friday, May 15th, his or her intentions of competitions. If their intentions are not declared the Livestock Office will offer the next placed specie contestant the opportunity to compete in the Master Showmanship Contest.

Voluntary Livestock Evaluation Contest

This contest is designed to be a rate of gain as well as a carcass evaluation (using the Ultrasound equipment) competition and educational program.

Livestock Evaluation is a program to provide junior exhibitors a learning experience that emphasizes all aspects of production. It is used to evaluate the total product rather than just the live animal as it appears on show day. This contest objective is to reward those exhibitors that produce an exceptional product through good selection, proficiency through healthy feeding practices and good livestock project management.

Evaluation Contest Scoring Procedure

Using data obtained from weighing lambs, hogs and goats at 60 days, and steers at 120 days prior to the Fair, then getting a final weight and ultra-sounding for loin-eye and back fat thickness at the Fair, animals are scored for the evaluation contest in the following manner:

Average Daily Gain – 40%

Calculated by dividing pounds gained by the number of days (60 or 120). Most pounds per day scores highest or 40 points, 2nd 36 points, etc.

Loin-Eye Size – 40%

Measured in square inches using actual ultra-sound data. Largest scores highest or 40 points, 2nd 36 points etc.

Fat Thickness – 10%

Measured in inches using ultra-sound data.
In hogs and lambs, least scores the highest and in beef the most scores highest or 10 points.

Show Placing – 10%

Calculated using show ring placing. 1st place scores 10 points, 2nd scores 9 points, etc.

Entries in the Livestock Evaluation Contest will register and be weighed and ear tagged at the San Bernardino County Fair Fairgrounds, unless otherwise listed, on the dates listed below.
